in education aided constitutes an overview of the many challenging research problems that must be solved in order to build a truly intelligent tutoring system. The book not only describes some of the approaches and techniques that have been explored to meet these challenges but also some of the systems that have actually been built and deployed in this effort as discussed in the introduction. Chapter 1 the terms aided and ITS are often used interchangeably and there is a large overlap in the researchers devoted to exploring this common field. In this foreword I will use the term aided to refer to the search area and the term ITS to refer to the particular kind of system that aided researchers build. It has often been said that aided is AI complete in that to produce a tutoring system as sophisticated and effective as a human tutor requires solving the entire gamut of artificial intelligence research AI problems.
